The diving

Going diving off the Northeastern coast of Bali is an experience that will stick with you forever. Firstly, there is the wreck of USAT Liberty. This magnificent wreck is located just off the beach, resting on a sandy slope. The view of the wreck, when you stand in shallow water putting your fins on is rather out of this world. Because it is resting on sand, all the fish and coral life is attracted to it, making it a wonderful eco-system thriving with life! This is a MUST do dive on Bali.

The area offers more than 30 different divesites, including another wreck, natural and artificial reefs with lots and LOTS of fish. The black volcanic sand is full of macro treasures like frogfish, pygmy sea-horse, ghost-pipefish, harlequin shrimp, blue-ringed octopus, bob-tailed squid, nudibranch and the list goes on and on and on...

Regardless of your experience, the diving in the area will blow you away. And the little dive resort on the beach will be the perfect place to get down in gear between the diving. You will be in the hands of a team of dive professionals with a great passion for the ocean and for making their divers go home with an urge to come back as soon as possible

Location

Compared to the hustle and bustle in the Southern part of Bali, the Northeast coast is one massive chill-pill. Here, travelers come to dive, relax in the beautiful resorts and perhaps take a hike on Mt. Batur and enjoy the impressive view to volcano Mt. Agung. With Tulamben 10 minutes away, and Kubu just 800m up the road, there are some local choices of places to dine. But to be honest, we recommend the restaurant at the dive center resort. The food is... really... good.

Your resort

ABWonderdive will be your cozy and atmospheric base during your stay. This hand-picked divers resort is located directly on the stony beach, surrounded by some of the best diving in North East Bali. Set in its own peaceful garden the resort has a 6 x 12m big swimming pool with plenty of hangout spots, a pool table, a Petanque field and like mentioned... a great restaurant.

Your charming bungalow:

With hot water, aircon and all meals included in the price of the spacious twin/double bungalow, your stay will be comfortable. Like the resort itself, the rooms are specifically designed for divers, it is cozy, clean and full of charm!

This is only a selection of the many dive sites represented on this particular diving destination. The diving is dictated by the safeness of the environment.

USAT Liberty wreck

This wreck is a personal favorite of many who have dived in Indonesia. The Liberty wreck is humongous with its 120m. It is a world class wreck dive site sitting in perfect conditions for both new and experienced divers. The wreck is covered with schooling fish, trevallies and barracudas in one great underwater show. For the lucky ones, black-tip reef sharks are also spotted frequently. Don't forget to check out the sandy parts around the wreck. Garden eels can be spotted here in huge numbers doing their dance.

Drop off Kubu (just by the dive center)

A highly popular dive site for our dive center! This dive site is just in front of the dive center and can be done any time of the day, year round. Both big and small stuff can be experienced here and with depths from 1 meter to 80 meters, ALL levels of divers will enjoy it! It is known as one of the best surprising dive spots, as you never know what is passing.

Gerombong area

Is 3 different dive sites in an area of 200m. Here, you will experience an amazing wall dive! The wall drops from 8m to an impressive 60m. This dive spot brings schools and big fish close to the divers. You can do a shallow dive in max 15 meters, and be surrounded by fish like you were diving in a booming aquarium. Go deeper and see the bigger fan corals, or stay in the gravel area and look for the weirdest stuff you can imagine. All in all, this is an excellent dive area, and not many know of it.

Then... there are another +25 dive sites, are you ready?? Your dive guide is!
