Koh Tao is a beautiful little island surrounded by warm tropical waters that are perfect for those seeking diving adventures. It is by far the most popular spot for dive training in South East Asia, if not the world!! And for many good reasons!

Of all the diving offered on the East coast of Thailand, Koh Tao has the best of it. Koh Tao Island - East coast - Thailand
Learn to dive - Sairee Beach - Private room

Location – Sairee Beach

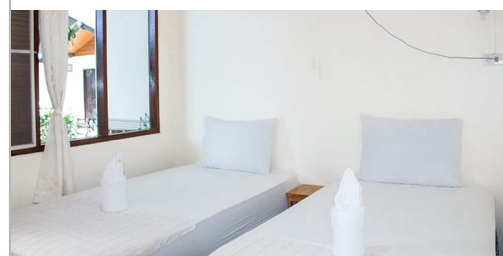

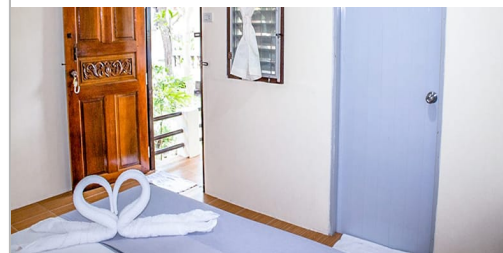

Koh Tao in general is packed with different bays and beaches that are well worth visiting with your snorkeling gear. The island itself has a great size in terms of exploration, and it is easy to get around on a scooter. However, if you want a young and very vibrant vibe, Sairee beach is the place to be! The atmosphere is buzzing with hippie happy backpackers hanging out in the cafes, the beach bars and obviously on the beach itself... which is the longest and most popular beach on the island. (you'll see why!)

Your accommodation - private room

Is right next to the dive center, and in the middle of Sairee beach. Walk out of your room, and within 2 minutes (of walking really slowly) you will be standing on the beach, next to the dive center. Even though you are staying right on Sairee beach, your accommodation is still pulled back from the crowds, securing you your beauty sleep.

Your room

Is a private room with 2 single beds or a double, depending on availability. A/C, hot (nice!) shower and daily cleaning. The room is simple, but clean, comfortable and right where you want it, when you come back from diving and in need of a good nap!

Introduction to course

The PADI Open Water Diver course is the most popular diving certificate worldwide. After completing this 3-4 day course you are certified to dive to 18m independently with a buddy. The course consists of five modules of learning. You study via a self-study workbook or offline-app, completing knowledge reviews for each chapter. This process is complemented by videos accompanying each chapter to reinforce what you have learned. The instructor reviews everything with you to ensure that you have fully understood everything. The practical learning consists of confined water sessions and four open water dives. Dive one and two are conducted at a depth of maximum 12m and dive three and four are conducted at a maximum depth of 18m. The final stage of the PADI Open Water course is an exam, which is a multiple choice exam covering all that you have learnt. Remember that the course is performance based and not time based.
