Introduction to course

The PADI Open Water Diver course is the most popular diving certificate worldwide. After completing this 3-4 day course you are certified to dive to 18m independently with a buddy. The course consists of five modules of learning. You study via a self-study workbook or offline-app, completing knowledge reviews for each chapter. This process is complemented by videos accompanying each chapter to reinforce what you have learned. The instructor reviews everything with you to ensure that you have fully understood everything. The practical learning consists of confined water sessions and four open water dives. Dive one and two are conducted at a depth of maximum 12m and dive three and four are conducted at a maximum depth of 18m. The final stage of the PADI Open Water course is an exam, which is a multiple choice exam covering all that you have learnt. Remember that the course is performance based and not time based. During this session, you will meet your group and your instructor, complete the paperwork, watch the first video and discuss the course schedule for the coming days. You will finish at 6:30pm.

Day 2: Today, you will spend the morning in the swimming pool, developing your skills and get comfortable with the dive equipment. After Lunch, your course continues with classroom sessions. You will be done in good time to join the Yoga Class at 6pm. (optional and to be paid locally or from home).

Day 3: This morning, you will be in the classroom for a few hours before heading out on the dive boat, to do the first 2 dives in the ocean with your instructor. These dives will be at a shallow depth and done progressively to make sure you get really comfortable with your new skills. In case you wish to book a Yoga Class to finish off the day, you will be back in time to do so!

Day 4: Early morning start! You are heading straight to the boat with your instructor and classmates this morning. Today, you will finish the course with 2 more dives in the ocean. The afternoon is left as a buffer, in case you need to practise more in the pool, do another dive, or have another classroom session.
