

Koh Tao Island - East coast - Thailand Diving Koh Tao - Sairee Beach

The diving

Out of all the diving offered on the East coast of Thailand, Koh Tao has the better of it. The island is famous for its laid back atmosphere on land. It is a cool paradise for those wanting to do their initial course or already certified divers continuing their education. It's not a lie, when said that Koh Tao is addictive. Backpackers usually end up staying for weeks.

The reef has taken some damage from the tourism, but due to a massive effort to protect and rebuild the reefs, the corals and the fish life is doing really well. Koh Tao is now offering some really good diving for divers on all levels.

Many dive sites are sheltered reefs with beautiful corals, good visibility, shallow depths and little to no current. Sites are reached in less than 20 minutes by boat. Deeper dive sites with pelagic marine life can be found a short 45 minute boat ride away. All year round lucky divers are encountering Whale sharks, Reef Sharks, Rays and Turtles.

Koh Tao Island - East coast - Thailand
Diving Koh Tao - Sairee Beach

Location – Sairee Beach

Koh Tao in general is packed with different bays and beaches that are well worth visiting with your snorkeling gear. The island itself has a great size in terms of exploration, and it is easy to get around on a scooter. However, if you want a young and very vibrant vibe, Sairee beach is the place to be! The atmosphere is buzzing with hippie happy backpackers hanging out in the cafes, the beach bars and obviously on the beach itself... which is the longest and most popular beach on the island. (you'll see why!)

Your accommodation - private room

Is right next to the dive center, and in the middle of Sairee beach. Walk out of your room, and within 2 minutes (of walking really slowly) you will be standing on the beach, next to the dive center. Even though you are staying right on Sairee beach, your accommodation is still pulled back from the crowds, securing you your beauty sleep.

Your room

Is a private room with 2 single beds or a double, depending on availability. A/C, hot (nice!) shower and daily cleaning. The room is simple, but clean, comfortable and right where you want it, when you come back from diving and in need of a good nap!

Diving Koh Tao - Sairee Beach

This is only a selection of the many dive sites represented on this particular destination. Diving is, at all times, dictated by the safeness of the environment.

Chumpon Pinnacle

Northwest of Koh Tao, Chumpon Pinnacle is widely regarded as one of the Gulf's premier dive sites. The site itself is a huge granite pinnacle and a series of smaller pinnacles rising from the bottom at 36m to within 14m of the surface. On the main part of the site divers can expect to encounter Batfish, Trevally, large Groupers, as well as huge shoals of Fusiliers. For those with keen eyes it is also possible to see Scorpion fish lazing on the rocks. Chumpon pinnacle also plays host to seasonal visits by Whale Sharks and their attendant Cobias and Remoras, plus the occasional Manta.

White Rock

White Rock boasts a large coral garden situated between two distinct granite pinnacles to the north and south sides of the site, and a vast array of both daytime and nocturnal inhabitants. With a depth range of 5m to 26m, and an average depth of 12m, White Rock is suited to everyone's experience level. White Eye Morays and Blue Spotted Rays are commonly sighted. Barracuda routinely visit here, it is particularly impressive to see them hunting on night dives when they will actually follow divers using the torch beams to spot their dinner. Night dives also unveil many different kinds of Feather Stars, hunting Cone Shells and feeding Stingrays.

Green Rock

One of the outlying dive sites Green Rock has its own special attractions for divers in the form of many varied swim throughs and the lunar like landscape created by nesting Yellow Margin Triggerfish. With a depth range of 3m to 30m most divers will find this site within their capabilities. The insides of the caverns and the undersides of outcroppings are home to many brightly colored soft corals and sponges, while the outer parts of the site play host to shoals of electric Blue Damsel fish, Tube Anemones with tiny translucent shrimps, Angel fish and the occasional Turtle.

In this event the dive center or Blue Venture is not obliged to give a refund.
