Advanced Course (RAID Explorer 30)

Introduction to course

The RAID Explorer 30 (advanced) course will get you even more comfortable in the water by simply completing five adventure dives under the supervision of a RAID Instructor. If you're looking to build your confidence and gain more experience, this is the natural next step on the ladder.

The course is designed so you can go straight into it after the Open Water Diver course. The RAID Explorer 30 (advance) course helps you increase your confidence and build your diving skills so you can become more comfortable in the water. This is a great way to get more dives under your belt while continuing to learn under the supervision of your RAID instructor. This course builds on what you've learned and develops new capabilities by introducing you to new activities and new ways to have fun diving.

You'll alter your skills by completing 5 adventure dives, 3 dives a mandatory, which introduces you to:

Underwater navigation

Deep diving (typically anywhere from 18-30 meters)

Buoyancy dive (will work on your trim, weight and position in the water)

You and your instructor choose from different types of Adventure Dives to complete your course. You can combine your own course choosing between special dives offered on the location, like for example digital underwater photography, wreck diving, night diving, diving with underwater scooters and much more.

Best part about the Explorer 30 (Advanced) course is: There is NO exam! Just lots of good diving.

WHEN TAKING THE COURSE

The Advanced course is a sure step. To enroll, you need to be certified Open Water Diver or equivalent. A refresher dive is recommended prior to the course if you've been out of the water for more than 6 months or have little experience.
